

IP Camera Balun Over Coax Converter Kit

B-204

The B-204 IP Camera Balun Over Coax Converter Kit is a perfect solution for updating analog based Security Surveillance systems to IP based systems by using the original coax cabling infrastructure. By being able to reuse the legacy coax cable and power cables, the B-204 creates a cost effective solution minimizing the amount of labor and materials required to retrofit an analog camera system to an IP camera system.

Features

- | |
|--------------------------------------------------|
| Sends video over 300' over coax cable |
| Compatible with Category 5, 5e and 6 wiring |
| Small size allows installation in crowded spaces |
