

NEW! Tilt 50 WireFree™ RTS Motor

Manage natural light with precision

Maximize the performance of horizontal blinds with precise tilt control.

Users can incrementally adjust slat positioning for the precise control of natural light using the Telis Modulis RTS remote, the dimmer for natural light.

-  Battery-operated
-  Accurate slat positioning
-  Precise control of natural light
-  100% wireless
-  Incremental Modulis scroll wheel control
-  Set limits via RTS control

Radio Technology Somfy® (RTS)

Telis 4 Modulis RTS
1811235

Sell your customers a lifestyle that provides the ultimate combination of luxury and performance with Radio Technology Somfy® (RTS). This exclusive control platform for motorized blinds (and more!) brings creative solutions to life. Using radio waves that can travel through walls for a range of up to 65 feet, it allows users to conveniently operate their motorized product while in another room or virtually anywhere inside or outside the home.

RTS controls are available in a wide variety of options designed to work together so users can mix and match as desired. The selection includes hand-held remotes, wireless wall switches, table-top controls, timers, sensors and a smartphone/tablet app. Compatible interfaces are also available and allow for seamless integration with third-party home automation systems regardless of brand or technology.

Sensors

Sensors react to the amount of sunlight and/or temperature in a room to automatically open or close blind slats to maximize energy savings.
